Process is designed to minimize or eliminate disruption of operations.

FULL OVERVIEW

Collects and displays all operational information from/to all actors.

INCREASED SAFETY

Solutions are designed to provide situational awareness to all parties.

beAware™ mudView™

MUD SYSTEMS
MANAGEMENT
TOOL

Revolutionize mud management! Say goodbye to whiteboard note-taking and noisy calls from the mud pits.

mudView™, mud systems management is simplified through digitalizing information sharing across the rig, enhancing data accuracy, accelerating decision-making, and boosting operational efficiency.

mudView™ ADVANTAGES

FULL CONTROL OF MUD INVENTORY	ACTUAL CONTENT AND VOLUMES	MUD MANAGEMENT PLANNING
<p>Easy to search, find and access overviews of your inventory.</p> <ul style="list-style-type: none"> ✓ Location, weight, quality and more about all fluids ✓ Bulk relevant for the mud process 	<p>Easy to register and distribute test results from the mud pits.</p> <ul style="list-style-type: none"> ✓ Instant overview of all content in the pits ✓ Exact volume of each content and storage 	<p>Document and share upcoming mud mixing and handling activities.</p> <ul style="list-style-type: none"> ✓ Pre-built dashboards and processes ✓ Plan displayed to all involved personnel

“

I have full control of the inventory.

The overview provides me we knowledge of content and activity of each pit. All personnel have the same information.
