

Industrial Cybersecurity

HMH Industrial Cybersecurity

Protects your industrial operations - secure, reliable, always on.

1

Shell Protection

- ✓ IPS (Intrusion Prevention System)
- ✓ Anti Malware
- ✓ Application Whitelisting
- ✓ Lockdown
- ✓ USB Lock

2

Network Upgrade

- ✓ Network security by design (layered, locked, secured)
- ✓ Robust, industrial network performance
- ✓ Restricted data-flow
- ✓ Redundancy
- ✓ Central management and access control

3

Server & Client Upgrade

- ✓ HMH core servers for hosting virtual computers
- ✓ Role based access (RBAC)
- ✓ Domain controller & backup server

PRODUCTION CONTINUITY

Minimal downtime

COST-EFFICIENT

Avoids expensive overhaul costs

MODERNIZES SECURELY

Across legacy & modern systems

RAPID DEPLOYMENT

In weeks, not months

COMPLIANCE-READY

Alignment to IEC 62443, NIS2 and NIST
